South Avenue Improvements

Mayor DiMura and Middlesex Borough Council have partnered with the Piscataway Township Council to solidify a course of action for several major improvements to South Avenue. Mayor DiMura and Borough Council have agreed on a plan of road improvement work that will include several areas of resurfacing, plus improvements to curbs and sidewalks.

By working with Piscataway Township, the improvements to South Avenue will serve several benefits to residents across multiple towns in our area and keep the quality of a road so frequently traveled on up to standard. The funding for the Middlesex Borough portion of the project is through a New Jersey Department of Transportation grant awarded to the Borough in 2015. More information regarding the status of these projects will be announced once dates are confirmed.
